Once you submit your application, it will be entered into Loyola's system for review. Although the due date is flexible in that we will *accept* applications submitted late, **it is highly recommended to submit your application as early as possible** as there is no guarantee late applications will be processed in time.

If your facility requires an **Outside Agreement**, the negotiations process is expected take two (2) months **or longer**. It is safest to anticipate a lengthy processing time. The agreement terms must be agreed to by both Loyola's legal department AND the facility's. As such, we **cannot guarantee** that outside agreements will be approved.

Please be sure to check out the Practicum Resources available on the [School of Nursing Resources](#) page.
